REG'S GARDEN WALK

Here's a great idea. Well-known entertainer, artist, long time garden enthusiast and creator Reg Livermore is offering to walk with you around your garden, to chat about ideas you may have and give his personal view on how you might improve or consolidate your landscaping visions and dreams. He will bring a fresh eye, and in consultation offer suggestions and possible solutions to help you create your own very special place.

Reg's adventure with his well-known garden in the Blue Mountains *Pirramimma*, began more than 30 years ago. It was open to the public and admired by garden lovers everywhere. Now resident in the Southern Highlands Reg has recently built a new garden; he is happy to share with you his experience, knowledge and understanding.

Reg will come to you.

Hourly consultations: cost on application.
